

WELCOME KIT

In brief

Entrance training systems for a quick and effective induction for new employees. The Welcome Kits provide a clear and immediate comprehension of the company's values, history, identity, structure, processes, people, roles, products, services, target markets. They can make use of various multimedia tools to facilitate quick understanding of the company.

What is it?

A good entrance training system is important for a quick and effective induction for new employees. It is fundamental to involve new arrivals during their first days working for the company, even better if it is done in the days before they start, but with the traditional classroom method this is not always possible.

With our multimedia Welcome Kits you can provide new employees with a clear and immediate comprehension of the company's values, history, identity, structure, processes, people, roles, products, services, target markets. The Welcome Kits quickly familiarise new employees with the company's daily organisation and helps them become immediately active.

What is it for?

- creating an immediate and engaging induction for new employees in the company structure and philosophy
- lowering the cost and time of entrance training
- allowing a rapid and synthetic vision of all the aspects of company life, useful not only for new employees but also those who have been working in the company for a long time
