

INTRANET CONTENTS

In brief

Light multimedia stimuli which, through the language of humour, play, art and culture, make the company intranet an engaging, pleasant and shared environment. To convey company values and messages with immediacy, rapidity and simplicity of use, innovating internal communication.

What is it?

Non-invasive multimedia stimuli which make the company intranet an engaging, pleasant and shared environment. Through made-to-measure schedules for publishing multimedia objects on the intranet, enriched with initiatives of participation and involvement, the company's employees can contribute to the creation of the content and make a community.

What is it for?

- conveying company values and messages with immediacy, rapidity and simplicity of use
- innovating internal communication
- encouraging access to the intranet
- creating positive motivation, energy and attitudes
